August Updates

On August 3, 2026, a tractor-trailer traveling northbound on S. Washington Street attempted to make a right-hand turn onto E. Baltimore Street. During the turn, the tractor-trailer struck a pedestrian crosswalk signal post, breaking the post and causing damage.

Utilizing the Borough's camera system at the intersection, along with the camera system in the area of the Exxon station, I was able to obtain the tractor-trailer's license plate information and identify the owner/lease company of the vehicle. Through further investigation, the driver was identified and the necessary information was obtained to complete the accident report

Traffic charges were subsequently filed against the driver in connection with the incident.

Vehicle Accident

On August 12, 2026, the Greencastle Police Department responded to a serious motor vehicle crash in the 300 block of West Baltimore Street involving a stolen vehicle that struck an occupied residence. The driver had been operating the vehicle at a high rate of speed and was subsequently arrested for DUI.

National Night - Submitted by Officer Morrow

The Greencastle Police Department's National Night Out was a great success and an excellent opportunity to strengthen the relationship between our department and the community we serve.

The event brought together residents, families, children, local organizations, first responders, and community partners in a positive and welcoming environment. Throughout the evening, we had the opportunity to interact with community members outside of the traditional law enforcement setting. I believe these face-to-face interactions are extremely valuable in building trust, creating familiarity, and showing our community that we are here not only to respond when something goes wrong, but also to be involved and accessible.

One of the most rewarding aspects of the event was seeing the number of families and children who attended and participated. The atmosphere was positive, relaxed, and family-oriented, which allowed officers to engage with residents on a more personal level. Conversations that may not normally take place during a call for service were able to happen naturally, helping both officers and community members better understand one another.

As an officer participating in National Night Out, I felt the event accomplished its primary goal of bringing law enforcement and the community together. It provided an opportunity to put faces to names, answer questions, address concerns, and create positive memories with the people we have sworn to serve and protect.

I would personally like to thank everyone who attended and participated in National Night Out, as well as all of the community partners, organizations, first responders, and department personnel who helped make the event possible. Your time, support, and participation were a major part of what made the evening such a success.

Overall, I consider Greencastle Police Department's National Night Out a successful community outreach event. The turnout, participation, and positive interactions demonstrated the importance of continuing programs that encourage communication and partnership between our department and the residents of Greencastle. I was proud to be involved and hope to see everyone again next year as we continue building a stronger relationship between our police department and the community we serve.

Sincerely,
Officer Jadan L. Morrow
Greencastle Police Department

Solicitation Without a Permit

On August 22, 2026, at approximately 7:26 p.m., the Greencastle Police Department received multiple complaints regarding Brightspeed sales representatives soliciting within the Borough without the required permit. The Department has addressed similar violations involving Brightspeed representatives on several occasions in recent months, and company representatives had previously been advised of the Borough's permitting requirements.

An officer located and spoke with a Brightspeed sales representative in the area of North Allison Street and advised that the continued unpermitted solicitation must cease immediately. The representative contacted his team leader, who was also instructed to have all sales personnel leave the Borough. Officers continued to patrol the area until the sales representatives had been picked up and departed.

During the incident, an officer also spoke with a resident who reported that a Brightspeed representative had come to her residence and asked questions that caused her concern, including when her husband would be home and what type of vehicle he drove. The resident reported that she asked the solicitor to leave several times before he eventually departed.

All known Brightspeed representatives were removed from the Borough, and no additional complaints regarding the solicitors were received that evening. The incident also highlighted ongoing concerns regarding repeated violations of the Borough's solicitation requirements and the need to protect residents from unwanted or concerning door-to-door activity.

Norfolk Southern Safety First Grant - Submitted by Administrator Faight

The Greencastle Police Department received an \$8,893.00 grant from Norfolk Southern for the Borough Public Safety Camera Expansion Project. The grant was awarded for the full amount requested and will cover the cost of an additional street camera for the Borough, further expanding the existing public safety camera system.

The Department has received grant funding from Norfolk Southern in support of the Borough's public safety initiatives each year since 2023. This year marks the first time the Department was awarded the full amount requested. The \$8,893.00 award will fully fund the purchase and installation of an additional camera, allowing the Borough to continue expanding the system without requiring additional local funding for this project.

The continued expansion of the camera network provides a direct community benefit by enhancing public safety, improving the Department's ability to investigate criminal activity and other incidents, and providing the us with an additional resource to identify vehicles, persons, and events of interest. The system also assists with crime prevention, situational awareness, while strengthening the overall safety and security of residents, businesses, and visitors within the Borough.
